TECHNICAL DETAILS

SPECIAL FEATURES

- Beaded liner included
- Corrosion resistant hardware
- Available in above ground and semi inground

Large, straight-sided ledges and attractive joints give the Castel pool its traditional charm and style. Resin components include columns and panel clips.

STRUCTURAL ELEMENTS

- The flexible panels are pre-assembled and perforated for easy installation. The slats allow for expansion and contraction caused by changes in temperature and humidity.
- Column
- Three solid stainless steel straps encircle the pool. Their strength was engineered and tested to withstand water pressure in the pool. 52" wall
